

Lower utility bills.  
Higher hopes.

*We help qualifying Nevadans “Weatherize” their homes to ensure energy efficiency.*

*And we do it for free.*

### How It Works

- We see what needs to be serviced, repaired or replaced
- We test heating/cooling systems, appliances, water heaters, insulation, home pressure and more
- We service furnaces and water heaters, seal ducts and air leaks, restore insulation, install carbon monoxide detectors and energy-efficient light bulbs ... and more

### Why Weatherize?

- Reduce the amount of energy required to keep you comfortable (warm in the winter and cool in the summer)
- Ensure your appliances are functioning properly and safely
- Save money each month with lower utility bills

**Put money back in your pocket!**

We serve **North Las Vegas, Rural Clark County, Carson, Churchill, Douglas, Lyon and Storey Counties**. Income limits depend upon household size. Proof of income, photo ID, social security card and original utility bill are required with applications.

**Visit [NVRural.org/Weatherization](https://www.nvrural.org/Weatherization) for qualification and application details.**

Nevada Rural Housing Authority is an equal opportunity provider and employer.
